

■ Glabridin

Introduction

Product Properties: Glabridin is extracted from the dried rhizome of Glycyrrhiza glabra L. Glabridin is one of the main flavonoids in Glycyrrhiza glabra.

Ingredient

Product Name	Glabridin
CAS	59870-68-7
MF	C ₂₀ H ₂₀ O ₄
MW	324.37
MS	

Item and Standard

ITEMS	UNIT	STANDARD
Appearance		White Powder
Odor		Characteristic Odor
Impurity		No Visible Impurities
Particle Size		100% pass 80 mesh
Identification		Positive
HPLC	%	≥98%
Loss On Drying	%	≤7.0%
Sulphated Ash	%	≤10.0%
Pb		≤2.0mg/kg
Total of Bacteria		≤1000cfu/g
Yeast & Mold		≤100cfu/g
Coli		≤0.4ppm
Salmonella		Negative

Application

Application in cosmetics:

1. Whitening, inhibiting melanin.
2. Anti-inflammatory.
3. Anti-oxidation..

Qingdao Wanyuan Mountain Biotech Co.,Ltd
青岛万源山生物科技有限公司

Packaging

25KG

Storage

Please reading safety data sheet before carrying or using the product.
Cool and dry, keep tightly closed, quality guarantee period is two years.
